Our Story

In 2000, CBS was founded by Brian Metcalfe with the goal of addressing the issues and needs of clients that were not being met by their previous security companies. Brian had worked for a company that was closing down, leaving the client without adequate security services. The client was so impressed with Brian's work ethic and dedication to their needs that they asked him to start his own company to continue serving them. This experience inspired Brian to create a company that not only provided top-notch security technology and services, but also prioritised the needs of the clients. He was driven to ensure every client was given the highest level of security possible, and that CBS would always go above and beyond to exceed their expectations. This ethos still drives CBS, today.

CBS has expanded significantly since its inception, from a small team of two to a highly qualified and proficient team of 27 individuals. Our team is dedicated to establishing enduring partnerships with our clients based on trust, honesty, and expertise.

Meet the Team

Corporate Business Security's specialised team enjoys working closely with each client to develop customised solutions that meet their unique needs and requirements, enabling us to take a personalised approach to security.

Product Brands and Services

Corporate Business Security offers a wide range of products from leading brands within the industry. Our products are uniquely designed to be flexible and customisable, allowing us to provide tailored solutions to meet our clients' specific security needs.

Services

Not only is Corporate Business Security dedicated to offering the highest quality products, we also strive to deliver services that are world-class, every time. To us, this means working closely with each individual client to understand their requirements and provide security solutions that are both effective and efficient.

Access Control

Our access control systems are designed to be flexible and secure, using state-of-the-art technology to restrict access to buildings or specific areas within a building. Our systems can be customised to meet the unique needs of each client.

CCTV

Our CCTV systems provide clear and reliable video footage, giving you peace of mind and a visual record of any incidents or suspicious activity. We offer advanced features, tailored to the specific requirements of each client.

Fire Detection and Suppression

Our fire detection and suppression systems are designed to detect and extinguish fires quickly, helping to prevent property damage and save lives.

Intrusion Detection

Our intrusion detection systems use advanced sensors to detect any unauthorised access to your building or facility. We offer a variety of options to provide maximum security.

Intercoms and Automation

Our intercoms and automation systems are designed to provide communication and control within a building or facility. We offer customised solutions to meet the unique needs of each client, including remote control of lighting, heating, cooling and security systems.

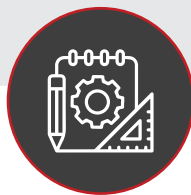

PA and Evacuation

Our PA systems are designed to provide clear and effective communication in the event of an emergency. Our evacuation systems are designed to provide clear guidance for safe and orderly evacuation, helping to ensure the safety of all occupants.

Complete System Integration

We specialise in complete system integration, bringing together various security and building management systems into a single, cohesive system. This improves efficiency, simplifies maintenance, and provides greater control and flexibility.

Design and Upgrades

Our team of experts can design and implement new security or building management systems, or upgrade existing systems to improve functionality, efficiency, or reliability. We work closely with each client to ensure that their unique needs are met.

Turnkey and Maintenance Solutions

We offer turnkey solutions, providing a complete security package from design to installation and ongoing maintenance. Our maintenance solutions ensure that your security systems are always up-to-date and functioning correctly, providing peace of mind.

Our Clients

Corporate Business Security has a proven track record in designing and installing integrated security solutions. Our mission to build long-lasting relationships with our clients based on hard work, trust, integrity, and professionalism has enabled us to work with a diverse range of top-tier companies across various industries.

All our clients currently make use of the full suite of services offered by CBS (as listed in our 'Services' section on page 2 of this document). **Our extensive list of valued clients include, but is not limited to, the following companies and industries:**

Corporate and Banking

RIVERS.

Certifications

Corporate Business Security holds several certifications related to the industry, including SAQCC, ISO 9001, and PSiRA. These certifications ensure that we adhere to the highest standards of professionalism and quality in the fire protection and security industries. Our team undergoes regular training and certification to stay up-to-date with the latest industry standards and best practices, ensuring that our clients receive the highest level of protection possible.

Broad Based Black Economic Empowerment

Corporate Business Security is a proudly BEE Level 2 company, demonstrating our commitment to promoting economic transformation and empowering previously disadvantaged individuals. We believe in creating a diverse and inclusive workplace that provides opportunities for all.

Value Statement

Corporate Business Security has a proven track record of delivering reliable, innovative, and cost-effective security solutions to our clients. We value our reputation and strive to keep on delivering world-class services by sticking to our company fundamentals:

Teamwork

Collaboration is the key to success. We work closely with each and every one of our clients and suppliers to develop customised security solutions that meet their unique needs and requirements.

Honesty

Conducting our business with integrity, transparency, and honesty. We strive to build trust with our clients by always being open and transparent in our communication and actions.

Accountability

Taking responsibility for our actions and being committed to delivering on our promises. We hold ourselves accountable for delivering high-quality products and services to our clients.

Hard work

Believing in working hard and taking a proactive approach to achieve our goals. We're committed to continuous improvement and constantly strive to find new and innovative ways to enhance our products and services.

Quality

Delivering the highest level of quality in everything we do. We use only the most advanced technology and equipment to ensure that our clients receive the best possible security solutions.

Our Vision

To be the leading provider of electronic security solutions in Africa, recognised for our commitment to quality, innovation, and customer satisfaction.

Our Mission

To provide innovative and reliable electronic security solutions that meet our clients' needs and exceed their expectations. We strive to build long-lasting relationships with our clients based on trust, integrity, and professionalism.
